

## Free Scotland Party

Free Scotland stands for:

- an Independent Scotland  
Independent of the UK  
Independent of the EU

Scottish Independence means the restoration of Scottish sovereignty. Decisions about Scotland made in Scotland by politicians based in Scotland answerable only to voters in Scotland.

A referendum promised on the Lisbon Treaty, EU Reform Treaty, Constitution, call it what you will, was denied us by the UK parliament.

French and Dutch voters voted down the EU Constitution. BUT it is back, with 90% of the content. That shows the contempt that the voter is held in by both UK and EU politicians.

The United States of Europe is coming soon to a continent near you!

Free Scotland says hold a 3 question referendum

Question 1 - EU Membership  
Question 2 - Lisbon Treaty  
Question 3 - Euro

**No** to membership of the EU  
to the Lisbon Treaty  
to the Euro

Free Scotland supports any referendum or measure to diminish the powers of the EU over Scottish life

Why does the Free Scotland Party oppose membership of the EU?

- the EU is not democratic, unelected appointees run the EU.
- EU law takes precedence over Scots law.
- 80% of Edinburgh or Westminster legislation is EU regulation.
- Membership costs Scotland over £5 billion each year.
- The Common Agricultural Policy costs each average Scots family an extra £20 per week.
- The EU is corrupt, EU accounts have not been passed for the 13th consecutive year.

Free Scotland Party

## Free Scotland Party

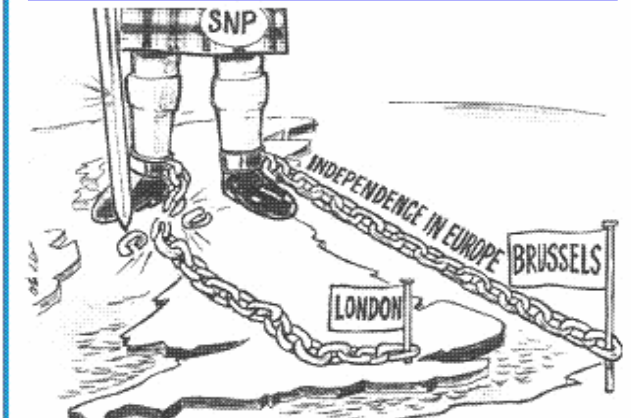

A government in Scotland elected by and answerable **ONLY** to voters in Scotland!

Sovereignty is an absolute concept.

A nation is either sovereign or it is not.

You can be **INDEPENDENT** or you can be in the EU

**BUT** you cannot be both!

## Free Scotland Party

### Independence in Europe?

Any idea what this slogan means?  
Don't worry, neither do members of the SNP.

And the reason is that this sound bite slogan means precisely nothing.  
You can not be Independent in the European Union (EU).

There is a clue in the second word of the EU's name and that is UNION.

Where is the logic in wanting to leave one small union (the UK) but at the same time wanting to be part of an even bigger union (the EU)?

### Independent of the EU!

The Free Scotland Party is a democratic political party committed to a wholly Independent Scotland outwith the European Union.

Scottish solutions to Scottish problems do not come from London.  
Scottish solutions to Scottish problems do not come from Brussels.

Scottish solutions to Scottish problems will come from a government elected by and answerable ONLY to voters in Scotland!

[www.freescotlandparty.org](http://www.freescotlandparty.org)

### What is the SNP for?

The SNP were once the only political party advocating Independence for Scotland.

You used to vote SNP for Independence, now you vote SNP for a referendum on Independence, well maybe!

We have been told that Independence has been 'parked', while the SNP has been sucked into administering devolution in Edinburgh for London.

The SNP has lost it's way. In the past they would never have relegated Independence to an also ran policy. Remember in the first Scottish Parliamentary elections the SNP almost forgot to mention Independence in their election literature until a journalist asked.

Independence is too important to be left to a party that does not know what it is for anymore.

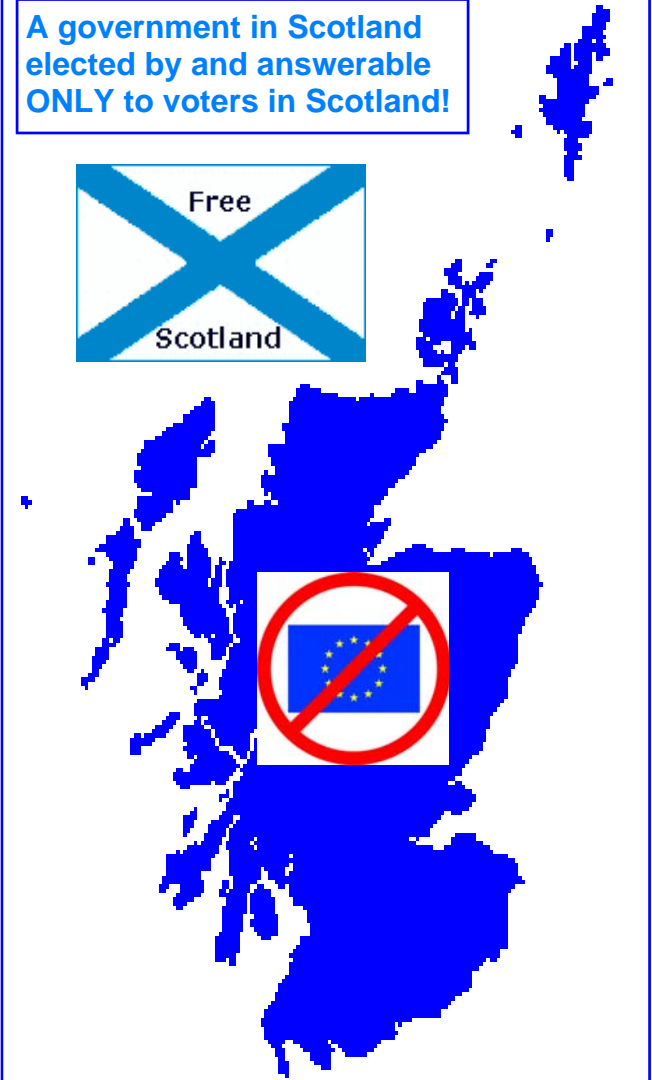

The Free Scotland Party wants an Independent Scotland, Independent of the UK, Independent of the EU.
