wants a government in Scotland elected by and answerable **ONLY** to voters in Scotland

**An independent Scotland!  
Independent of the UK!  
Independent of the EU!**

Every journey starts with that first step!

Independence means the restoration of Scottish sovereignty, dignity, self respect and self confidence.

Decisions about issues in Scotland should be made by politicians in Scotland answerable only to voters in Scotland!

Take that first step, support the Free Scotland Party.

**FREE SCOTLAND**

You can be Independent or you can be in the EU

**BUT you cannot be both!**

Free Scotland says leave the EU because

- The EU is not democratic
- 80% of Edinburgh or Westminster legislation comes from EU regulations
- EU law takes precedence over Scots law
- Scotland contributes over £250 million more to the EU than we receive
- The Common Agricultural Policy increases the cost of the average family food bill by over £20 per week
- EU accounts have not been passed for the 12<sup>th</sup> consecutive year

Did you vote for any of this? You would leave a club that kept going against your wishes. It is time to leave the EU!
